DETAILED ACTION

Claims 30, 32, 49-51, 58-62 are pending.

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114 was filed in this application after a decision by the Board of Patent Appeals and Interferences, but before the filing of a Notice of Appeal to the Court of Appeals for the Federal Circuit or the commencement of a civil action. Since this application is eligible for continued examination under 37 CFR 1.114 and the fee set forth in 37 CFR 1.17(e) has been timely paid, the appeal has been withdrawn pursuant to 37 CFR 1.114 and prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 3 April 2009 has been entered.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 30, 32, 49-51, 58-62 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Although claims 30, 50 recite a method using a computer, the computer seems to be any general computer not a particular machine. The bodies of the claims merely repeat "using the computer" for each function performed without tying the function to any specific component. Claim 51 corresponds to a computer program product to perform the method of claim 50, thus is also non-statutory.

Allowable Subject Matter

Claims 30, 32, 49-51, 58-62 would be allowable if rewritten to overcome the rejection under 35 U.S.C. 101 discussed above and if supported by the specification.
